

BHAVIK PATEL

Ahmedabad, Gujarat, India | 8141330369 | bhavikpatel612@gmail.com

GitHub: <https://github.com/BhavikPatel612?tab=repositories> LinkedIn: [linkedin.com/in/bhavik-patel-351a00370](https://www.linkedin.com/in/bhavik-patel-351a00370)

PROFESSIONAL SUMMARY

Aspiring Data Scientist with hands-on experience in data analysis, machine learning, and visualization. Skilled in Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, and Power BI, with a strong foundation in data cleaning, exploratory data analysis (EDA), and predictive modeling. Experienced in building end-to-end data science projects, including model development using Scikit-learn and XGBoost, and deploying applications using Streamlit.

TECHNICAL SKILLS

Data Analysis & BI: EDA, KPI Reporting, MIS Reporting, Dashboard Development

Visualization Tools: Power BI, Tableau, Excel (Pivot Tables, Charts, Slicers, filter)

Databases & SQL: MySQL, Joins, Subqueries, GROUP BY, HAVING, Views, Data Modeling

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)

Machine Learning: Scikit-learn (Regression, Classification, Feature Engineering, Feature Selection, Feature Encoding, Feature Scaling)

Other Tools: ERP Systems, Outlook 365, Hardware & Network Troubleshooting

PROFESSIONAL EXPERIENCE

Prayosha Foods Pvt Ltd. – Sr. Technical Support Engineer

(Jun 2022 – May 2025)

- Provided technical support for cloud-based POS systems (Pet Pooja).
- Installed and configured software, printers, and LAN/USB connectivity.
- Resolved customer issues via phone, email, and chat using structured troubleshooting.
- Maintained accurate system data and ensured smooth system operations.

Jindal Worldwide Ltd. – Supervisor & Computer Operator

(Dec 2020 – Jun 2022)

- Managed ERP data for production, packing, and dispatch processes.
- Collected, cleaned, and validated datasets for MIS reporting.

Allied Digital Services Ltd. – Technical Support Engineer (Client: Air India)

(Dec 2016 – Jun 2020)

- Supported systems and applications, including network troubleshooting.
- Diagnosed and resolved OS, hardware, and application issues.

HCL Services Ltd. – Customer Support Engineer

(Aug 2016 – Nov 2016)

- Installed applications and configured Outlook 365.
- Provided end-user system support.

Chiripal Industries Ltd. – Computer Operator

(Oct 2014 – Nov 2015)

- Collected, validated, and maintained production data in ERP systems.
- Updated ERP records and performed data cleaning.

PROJECTS

End-to-End Data Science Project: Customer Churn Prediction System

GitHub: <https://github.com/BhavikPatel612/End-to-End-Data-Science-Project-Customer-Churn-Prediction-System>

Live App (Streamlit): <https://end-to-end-data-science-project-customer-churn-prediction-syst.streamlit.app/>

Pipeline: Excel → MySQL → Power BI → Python (EDA) → Machine Learning (XGBoost) → Streamlit

- Cleaned and transformed customer data using **Excel (formulas, Pivot Tables, filters)** and analysed churn patterns using charts
- Extracted business insights using MySQL queries (**SELECT, WHERE, GROUP BY, aggregations**)
- Built an **interactive Power BI dashboard** using **cards, slicers, textbox insights, and charts** (bar and pie charts) to track churn patterns across **contract, tenure, monthly spending, and service-level usage**
- Performed **Exploratory Data Analysis (EDA)** in Python using **Pandas and Matplotlib** with visualizations to understand customer behaviour.
- Developed and evaluated an **XGBoost-based** machine learning model for churn prediction using performance **metrics** such as **Accuracy Score**.
- Built and deployed an **interactive Streamlit web application** for real-time churn prediction with user inputs.

Smart Job Salary Predictor + Career Insights

GitHub: <https://github.com/BhavikPatel612/Smart-Job-Salary-Predictor-Career-Insights>

Live App (Streamlit): <https://smart-job-salary-predictor-career-insights-7eqseajglzlfzqggig.streamlit.app/>

- Developed a web app using **Python, Streamlit, Scikit-learn, Pandas, and Plotly** to predict salaries based on skills, experience, and location.
- Implemented regression models (Linear Regression) for prediction.
- Added interactive visualizations to explain salary trends and feature importance.
- Enabled user-driven analysis with dynamic inputs and real-time outputs.

Mobile Sales Dashboard | Power BI

GitHub: <https://github.com/BhavikPatel612/Power-Bi-mobile-sales-dashboard>

- Built an interactive dashboard using **Power BI, DAX, Power Query, and Excel** to track KPIs like Total Sales, MTD, and YoY growth.
- Designed data models and managed relationships between sales and calendar tables.
- Created DAX measures for time-based analysis and KPI tracking.
- Delivered insights across city, brand, model, and payment methods.
- Built page navigation with buttons to switch between Dashboard, MTD, and YoY views.

Hospital Emergency Room Dashboard | Excel

GitHub: <https://github.com/BhavikPatel612/Excel-Hospital-Emergency-Room-Dashboard>

- Developed an interactive hospital emergency room dashboard in Excel using **Pivot Tables, Power Query, charts, and slicers** to analyze 2023 data.
- Analyzed patient flow, waiting time, admission status, and satisfaction metrics.
- Tracked KPIs such as patient count and average waiting time using dynamic filters and slicers.
- Examined patient distribution by gender, age group, and department.
- Identified insights on treatment delays and departmental workload to support decision-making.

E-commerce Analytics (Snapdeal Web Scraping Project)

GitHub : [GBhavikPatel612/Snapdeal-Mens-Shoes-WebScraping-Analytics](https://github.com/BhavikPatel612/Snapdeal-Mens-Shoes-WebScraping-Analytics) · GitHub

- Scraped product data (price, discount, ratings) using **Python (Pandas, NumPy, Jupyter Notebook)**.
- Cleaned and processed data by handling missing values, duplicates, and outliers.
- Built dashboards in **Power BI with DAX** to analyze pricing, discounts, and brand performance.
- Generated insights for pricing strategy and product comparison.

EDUCATION

Master in Data Science & Analytics with AI – IT Vedant (Pursuing)

Diploma in Computer Engineering – N.B. Patel Polytechnic, Mehsana (2014)

CERTIFICATIONS

- Microsoft Power BI — Simplilearn (2025)
- Data Analytics — Udemy (2025)
- Power BI, Tableau, SQL, Advanced Excel, Python, Analysis with python, Python essentials for data science, Machine Learning Mastery — IT Vedant (2026)

ACHIEVEMENTS

- Top Performer – Support, Pet Pooja (March 2023)

LANGUAGES

Gujarati | Hindi | English
